

BE THE FIRST 100 TO DRIVE THE TESLA MODEL S

*"A Special Programme to Promote Electric Mobility,
Exclusive for GLCs, Government Companies, Corporate Members"*

INTRODUCING THE TESLA MODEL S

Tesla Model S advanced electric powertrain delivers exhilarating performance. Unlike a gasoline internal combustion engine with hundreds of moving parts, Tesla Model S only have one moving piece: the electric rotor. As a result, the Model S acceleration is instantaneous, silent and smooth. Model S is a game changer in automobile engineering.
